

QUALITY POLICY

Bayn Solutions AB works with specified quality on all levels and in cooperation with customers and manufacturing sites and our commitment to quality in our output is expressed as follows:

- We provide the expertise and monitor production practices ensuring that our products consistently meet the International Standards and comply with all relevant legislation
- We focus on our customers through market driven innovation and application, aiming to meet or exceed customers' expectations
- We co-operate with business partners based on mutual trust and shared knowledge
- We select subcontractors based on our values
- We remain an attractive employer
- We recruit competent staff and qualify them by regular training
- We improve our QMS by continually optimising our processes.
